➔ POSING FOR BODY TYPE

No matter what size, shape, features you are or have, we will make them work for you in the best way guaranteed!

➔ SHOWING OFF CURVES

According to Wikipedia, a news article discusses current or recent news of either general interest or of a specific topic. Political or trade news magazines.

➔ BACK ARCH

Every woman looks incredible in a back arch position. The secret is the right angle and lighting. Leave that to me!

➔ EXPRESSION

Being able to say the right thing to get the client out of their head and into the moment is gold. Achieve this and you have won most the battle. Capture their personality!

"Kandice is amazing to work with! She is professional and kind. She takes her time to make sure that her clients are captured at their best, and the end result is breathtaking. I highly recommend her incredible services." -Lady H

POSE LIKE A PRO

I have heard every excuse in the book about why NOT to have a boudoir or glam session done. Everything from I need to lose some weight to I shouldn't spend money on myself, and don't forget, "what will I do with that many photos of myself?" It's all non-sense! The women I work with are every day women of all sizes, ages, shapes, and backgrounds. I rarely work with professional models unless it is a commercial shoot and I appreciate it being that way. I get to witness first hand these women stepping out of their comfort zone and into a whole new light. In my studio, they finally get to see that naturally beautiful creation they were meant to be for the first time in their lives. They finally see themselves like others see them and they are forever changed by what I do. The work here is nothing if not a life-changing experience, monumental.

Every woman should have this experience at least once in her life if not every single year. Where and who you are now is absolutely worth celebrating every moment of. Do it. You will not regret it.

THE LAST OF THE INSECURITIES

Portaits and Boudoir

Even for the most shy, conservative, uncertain woman who doesn't believe in herself, I say bring it.

Bring me all of it and I will show you who you are. Don't shy away, don't allow yourself to miss an incredible opportunity because you think your waist line is too big, smile is too crooked or you have a some new-found lines and wrinkles.

We take all that and use it to show you that all those things are not what people see when they look at you. They are at best barely noticeable in a sea of the alluring essence of who you are as a woman.

We will show you all the best parts of you in a way that will blow your mind. Trust me, let the walls come down, grab your hottest heels and join me.

TRENDING LOOKS IN 2022. I SEE RED...

We must say red, red everywhere this year! It does not have to be a sea of red, it can be a subtle pop. One thing we are really noticing is that red heels and black heels with red bottoms are HUGE right now. From red sheets, to red lace, to a red piece of jewelry, we see it all. Have you gotten yours yet? Don't miss it.

The wings, oh the glorious wings. We actually have our first pair in the studio this Spring. They are black, super sexy and sleek. They would look incredible paired with red, black, white, champagne, leather or lace. I cannot wait to run a promotion this Summer and let all the ladies get their chance. We will be also getting an ostrich feather grey in this year. Get on the books and secure your memorable day.

"Kandice was such fun to work with and makes you feel so comfortable in your own skin! She is great with guidance for poses and truly makes your session about YOU! Her studio is nice and private with many options for backgrounds, accessories, and colors. Her work is truly beautiful; she edits her photos to help accentuate your natural beauty instead of trying to cover up everything with unnecessary filters. There are so many options for prints and packages as well. You'll feel like an absolute queen being photographed by her and the photos will be absolutely magical when all is said and done! " -
